

**Orna Hellinger** has established the Internet Security Center of the Israel Internet Association (ISOC-IL) in 2013 – building and operating an emergency line to support people who are victims of the internet. In addition to aid and preventive activities, Orna is involved in public policy initiatives representing ISOC-IL in the Knesset, leading campaigns and a coalition of professionals who collaborate to promote safe surfing among children and adults. Orna promotes awareness to safe internet through media interviews and public lectures. Her previous experience includes more than 20 years of call centers management.
