Law, Cyber and COVID-19:
AI and Big Data in Decision-Making // 9th December 2020
Cyber Attacks // 10th December 2020

The Symposium, co-organized by the two leading academic programs in Israel focusing on law and cyber, looks at two areas of interaction between technology and the COVID-19 pandemic: Harnessing digital technology to combat the spread of the pandemic and the exploitation of cyber security shortcomings to launch cyber attacks and engage in data theft.

Wednesday, 9th December 2020
