

Cybersecurity Breaches and Private Law – Taking Stock and Looking Ahead

Title: General Data Protection Regulation (GDPR) and self-regulation: consequences for non EU-companies

Name: Yaniv Benhamou

Institution: University of Geneva

Abstract:

Non-EU companies need to anticipate new developments and requirements in line with the EU General Data Protection Regulation (GDPR), which provides new requirements, such as obligations to maintain records of data-processing activities and to notify personal data breaches without undue delay. This presentation highlights the key preparatory implementation steps recommended to comply with the GDPR, in particular with the notification duty in case of personal data breaches, and includes solution proposals via the Codes of conduct and certification mechanisms.
